# SMOOTHCOOL

Maybe you've been thinking of how to improve your appearance... Or maybe you've been driving for hours to get professional, medically supervised aesthetic skincare, and you really just want to find a medical spa that can fit you, and your schedule. With the power of SmoothCool, now available at our Medical Spa in Colby we are just what you've been waiting for!

## WHAT IS SMOOTHCOOL IPL?

The SmoothCool IPL is a breakthrough Intense Pulsed Light platform with automatic skin cooling technology that's changing the way clients approach being more beautiful.

SmoothCool is a sophisticated, elegant light based technology for the treatment of unwanted hair, acne & acne scarring, freckles, sun damage, age spots, liver spots, flushing, rosacea, melasma and visible facial blood vessels.

Using intense pulses of light emitted in various colors, the SmoothCool IPL technology is an ideal blend of functionality and efficiency. Take a look at how SmoothCool can kick start your skin:

- SmoothCool's IPL energy penetrates both the superficial and deeper layers of your skin to reduce imperfections, and boost collagen levels. It's a powerful beauty booster that helps the skin to improve its elasticity, leading to a tighter, smoother and more youthful appearance.
- We can also remove that pesky unwanted hair safely and painlessly! In just a few sessions you'll begin to see results that will make you wish you'd done it years ago!
- SmoothCool is fabulous for improving the tone and texture of your face, neck & chest, and for hair removal on your arms, legs, armpits, bikini area, and jawline.

# Renew your Beauty
